

Did you know? Bowel cancer is Australia's second biggest cancer killer. Your bowel cancer risk rises from age 50 but it can strike at any time. An Apex Roma member was diagnosed at just 21... Our club urges you to make a team and join us for a fun night of trivia on June 30, as we raise money and awareness for this deadly disease. Bowel cancer claims the lives of 3,980 Australians every year, including 209 people under the age of 50.

JUNE IS BOWEL CANCER AWARENESS MONTH
